**Friday, March 7, 2003**

**10:00 a.m. to 11:30 a.m.**

**2253 Rayburn House Office Building**

---

*“ON THE ROAD -- will ISTEA and TEA-21 Keep America Moving?”*

Welcome: Kevin Moriarty  
Director, Population Resource Center

Presenters:

“Journey-to-Work Data from Census 2000”

Phillip A. Salopek, Chief, Journey-to-Work and Migration Statistics  
Branch, Population Division, United States Census Bureau

“Considering Equity in Transportation Planning and Policy”

Richard Stolz, Senior Policy Analyst, Center for Community Change

“The Federal-State Transportation Partnership: Is It Working?”

David S. Kim, Deputy Director, Washington Office of the Governor of California

“One Region, One Future”

Nancy L. Firfer, Senior Advisor, Chicago Metropolitan 2020

More than seven out of ten American commuters drive to work alone. Fewer than five out of one hundred commute by public transit. The journey to work can have a profound influence on quality of life for most Americans. The decisions made by planning and transportation officials will have significant impacts on our nation’s future. As the Congress prepares to reauthorize the Intermodal Surface Transportation Efficiency Act (ISTEA) and the Transportation Equity Act for the 21st Century (TEA-21), we present this critical examination of transportation issues. Please join us for this lively breakfast discussion with experts from the federal, state, and local levels.
