* "Adjusting" federal tax burden sets it equal to federal spending in order to derive a comparable state balance of payments. This adjustment compensates for a year's deficit or surplus. U.S. total amounts exclude "undistributed" funds as well as spending in U.S. territories and insular areas.

No inflation adjustment is included. Expenditure totals revised to exclude undistributed funds and spending in territories. The District of Columbia is treated as a state. Annual population as of July 1. Expenditures classified as "other" prior to 1998 are parsed among other categories by subsequent share.
